

Scavenger hunt

We had a list of objects that we needed to work collaboratively to find in our outdoor area.

We had to look at the pictures on our checklist and try and find them in our environment. Some of us used our knowledge of sounds to read the words too.

Year 2 were responsible for taking pictures using the iPads of the objects that we found on our checklist.

A lot of teamwork was needed for this activity.

Afterwards we collaboratively created a photo collage on j2e by resizing the photos and positioning them where we wanted them to go.
